CROSS POLLINATION

by Santtu Mustonen

Mixed Media: Projections and C-Prints on Aluminum

2017

Cross-pollination: in nature, the literal process of transferring pollen, yields the seeds of new life. In art and culture, the process of exchanging and converging ideas, fosters new ways of seeing, being, feeling, thinking.

Inspired by the choreography, movement, and abstract storytelling of New York City Ballet works, Mustonen creates a series of immersive digital paintings and gestural fine art prints that aim to transport the viewer to another world, inviting us to get lost inside the visuals and find our own way of seeing ourselves through a richly creative ecosystem.

To see more of Mustonen's work visit santtumustonen.com. For inquiries about the art call 646-454-9959 or email hello@hugoandmarie.com.

The installation is developed and produced with the help of Hugo & Marie. Special thanks to Tuomas Alatalo, Sanna Komi, Hard Work Party, Gamma NYC, SenovvA.
